Just Think of It.

How desperate some people get when others say "NO."

But it has come to such a point in the business affairs of a great majority of tradesmen in this country as well as all others that this great system of credit has got to come to a close.

CASH! On the spot if once established among our American people would be one of the greatest revolutions for the betterment of the conditions of this great people of ours and would save the good name of many an honest struggling man.

NO is the only word that has been the means of saving a great many dollars and making a fortune for some people—business men must buy their GOODS for cash and get the benefit of Low Prices and Small Profits for Cash, and then our customers will reap the benefits if honestly dealt with.

We are still asking your patronage when wanting anything in our line.
